SecurityCEU.com Launches Aiphone IX Series Online Course

SecurityCEO.com has developed an online course for integrators looking for a comprehensive training that teaches everything needed to know about installing and programming an Aiphone IX system.

Titled, *Aiphone IX Series Quick Start Guide*, the two-hour course, describes the network requirements for an Aiphone IX system, how to identify the type of network in an installation environment, how to install the easy to use IX Support Tool, and how to complete the initial programming of an Aiphone IX system.

"The complete guide covers all the essential topics and will have you up and running in no time," said Connie Moorhead, CEO at The CMOOR Group who owns and operates SecurityCEU.com. "Plus, with the course being online, integrators can take the course at any time, and from anywhere."

The *Aiphone IX Series Quick Start Guide* is a thorough resource for both seasoned pros and complete novices who want to get the most out of their Aiphone IX system.
